FUELING SYSTEMS

WAYNE HELIX™ 2000 FUEL DISPENSER, EMEA

Pump up the volume

Not limited by its size, the Wayne Helix™ 2000 delivers versatility and unprecedented accuracy to your forecourt. In short, it's simple, modest and hardworking.

The Helix 2000 fuel dispenser's unobtrusive size makes it the ideal solution for truck stops, special applications, for example marinas and airports, and confined sites such as small retail fuel stations. This unpretentious model delivers exceptional functionality, practicality and durability in one unique package.

Wayne Helix 2000 fuel dispenser

Compact Workhorse

Available as both a lane and island-oriented model, the Helix 2000 offers increased configuration options and capability, with the option to dispense up to two fuel grades. With high-speed refuelling of up to 180 LPM, this dispenser is perfectly adapted to quickly and efficiently fill large fuel tanks, resulting in reduced driver downtime.
